

Assignment - module 7, chapter 2 NodeJS Introduction

Due Jan 11 by 11:59pm **Points** 20 **Submitting** a text entry box
Available until Jan 15 at 11:59pm

This assignment was locked Jan 15 at 11:59pm.

- 1) Create a directory inside your working copy called Chapter1
- 2) In this directory get a working node server similar to listing 1.1 that runs.
 - It should run on port 3000 and should be running until I grade it.
 - It should be called HelloWorld.js
 - It should output the string Hello World in response to the url /
 - Every file you submit should have a header with:
 - Name
 - Course
 - Assignment
 - Put in comments in the code that describe each major component

Here in canvas submit:

- A brief statement of any issues you had getting this assignment to work.
- A clickable link to your repository
- A clickable link to your program

Some Rubric (7)

Criteria	Ratings		Pts
Description of issues	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Files in repository	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Server code - has comments and required header	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Code Runs	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Total Points: 20.0
