

Assignment Module 9 - Chapter 4 - Middleware

Due Jan 15 by 11:59pm **Points** 18 **Submitting** a text entry box
Available until Jan 17 at 11:59pm

This assignment was locked Jan 17 at 11:59pm.

In this assignment you will add logging to your previous assignment.

Copy over Assignment-8 to Assignment-9

Do the following:

- Add the morgan logging package (make sure to use npm install with the --save option so your package.json is updated)
- Add morgan to log to a file called access.log using the short format (read the morgan documentation at <https://github.com/expressjs/morgan> ↗ (<https://github.com/expressjs/morgan>))
- Add a custom 404 error handler that includes some reference to contact your (your real contact info) for errors and support
- All code should be committed to your git repo
- The server should be running on port 3009
- Submit:
 - a clickable link to your git repo
 - a clickable link to your running instance
 - paste several lines of your log here.

Some Rubric (10)

Criteria	Ratings		Pts
Links present and clickable.	2.0 pts Full Marks	0.0 pts No Marks	2.0 pts
Code Quality	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
package.json updated with morgan	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Log messages	3.0 pts Full Marks	0.0 pts No Marks	3.0 pts
404 error	3.0 pts Full Marks	0.0 pts No Marks	3.0 pts
			Total Points: 18.0
